**Subject:** MICROSOFT SETTLEMENT

I hope you will not be influenced by the smoke screen of AOL-Netscape law suite against Microsoft and will go ahead and settle the Microsoft - department of justice law suite . I think settling this matter is in the best interest of the people of the united states and the world . in my opinion Microsoft is a great company to do business with. AOL needs to get their act together and figure out a way to serve the public as good as Microsoft does !
